- Work Readiness
- Emotional Intelligence
- Personal Branding
- Verbal Communication
- Interpersonal Skills
- Team Collaboration
- Independent Work

Interests

- Exploring Emerging Technologies
- Mentorship & Collaboration
- Building Web Applications,
- Problem Solving

CAPACITI

I'm Ntombizikhona, a Port Elizabeth native, and I recently received my diploma from Walter Sisulu University (2024) in ICT in Applications Development. As a driven software development graduate currently studying in the Capaciti Software Development Program, I have hands-on experience with React.js, Node.js, Python, and basic machine learning. I enjoy working in Agile teams to create creative, user-centred digital solutions, and I have a strong expertise in web and full-stack development. I am also capable of working independently with discipline and focus to produce high-quality outcomes. Along with my technical capabilities, I have also developed excellent professional workplace qualities, such as professional writing, verbal communication, personal branding, and emotional intelligence. I have a strong desire to advance as a developer and make a significant contribution to worthwhile IT initiatives.

Education

- **Walter Sisulu University 2019-2024**
- Diploma in ICT in Applications Development
- **Sinenjongo High School**
- Matric

Work Experience

Achievements and Key Projects
